Management Department

RE:Luthando's Practical Experience with Bitprop

To Whom It May Concern,

Luthando Shezi took upon his practical experience with Bitprop from 18 June 2024 to 19 July 2024. During his time with us, Luthando demonstrated a strong work ethic, excellent technical skills, and a proactive attitude that made him an invaluable asset to our team.

He was involved in overseeing various construction projects, from planning to execution, and consistently showed a keen understanding of construction management principles. He displayed an aptitude for problem-solving and adaptability, quickly grasping the complexities of the projects and finding solutions when challenges arose.

His communication skills were another key strength. Luthando maintained clear and professional interactions with all team members. His enthusiasm for learning and improving his skills was evident in the way he sought feedback and applied it effectively. In addition to helping out in other departments, he contributed to the BOQ compilation, office administration, and updating spec documents.

I have no doubt that Luthando has a promising future in the construction industry. He is a diligent, responsible, and motivated individual, and I am confident that he will excel in any role he takes on.

Sincerely,
Ziyanda Mjobo
Construction Manager
