To Whom It May Concern,

RE: LUTHANDO SHEZI EMPLOYMENT WITH WNA CONSULTING ENGINEERS (Pty) Ltd

Luthando Shezi took up employment with WNA Consulting Engineers Pty Ltd between 27 June and 15 July 2022. I have read his daily report and can confirm that the report is of a true nature and that he undertook a two-week internship.

Luthando undertook a lot of responsibility and exceeded my expectations in how well he handled it and carried himself. Luthando was very professional in everything he did and had good communication skills.

Luthando was highly involved in major company projects and office work for the three weeks he was with us. Luthando helped on site and in the office doing things like , preparing BOQ's , filling in tender documents , preparing site minutes and attending site meetings to name a few.

I believe Luthando will be an asset to the construction industry in the future and look forward to seeing where he ends up.

If you have any questions about Luthando's time with WNA CONSULTING, please do not hesitate to contact me.

Yours faithfully,

NKOSI MALISHE
