RE: LUTHANDO SHEZI'S PRACTICAL EXPERIENCE WITH BITPROP

Luthando Shezi took upon his practical experience with Bitprop during the month of July 2021. I have read his report and I can confirm that it is accurate. Mr Shezi took on a three weeks practical experience with us where he assistant the Construction Manager in monitoring all Bitprop construction sites and Contractors in Khayelitsha Cape Town. He worked closely with the team and was very actively involved, he over-extended himself by assisting with compilation of BOQ, office admin and assisting the Architect with Drawings.

Mr Shezi was very professional with good communication skills as at times he would be the one addressing issues on site with the main Contractors as well as resolve labour concerned issues. He was very good with time management and meeting his weekly given targets. I believe Luthando will thrive in the Construction Industry.

For further information please do not hesitate to contact the me or the company.

Yours faithful
Abongile Mvukuzo
