

Luthando Shezi

EBE STUDENT

A self-motivated and confident construction management student in his honours year of postgraduate studies at the University of Cape Town. I am really fascinated about the construction industry and want to acquire the necessary skills that will enable an impactful career towards the community and nation . Lastly, I'm committed to learn from professional experts .

Experience

○ 2024

Bitprop

Construction Manager Intern

- Conducted in-depth analysis of maintenance data for Bitprop dwellings, identifying key trends and quantifying recurring issues.
- Assisted with the inspection and evaluation of building projects amongst sites in Khayelitsha and EersteRivier.
- Used IBUILD to send home loan statements to homeowners.
- Developed a draft Bills of Estimate with comparisons of various hardware/ building stores.

○ 2023

SALGA : Data4Mia

Vac Work Student

- I was responsible for delivering:
 1. A draft wastewater risk abatement plan.
 2. A draft Blue Drop corrective action plan.
 3. A draft No-Drop implementation plan.
 4. A draft municipal water and sanitation tariff design.

○ 2022

WNA Consulting Engineers

Intern

- Prepared a weekly progress report for the engineer,
- Measured the work done and materials used on site.
- Applied for funding using websites like MIG MIS for a tender,
- Prepared a BOQ and a cost estimation for a particular project.
- Located boreholes in the UGU District Jurisdiction using Google Earth and then transferred the data onto Microsoft Word.

○ 2022

UCT Spring 2022 Community Build

Deputy Team Leader

- Part of a group of four individuals tasked to do various activities for a week and was the deputy team leader.
- Used demolition breaker to remove screed on old buildings on site.
- Executed site clearance and site setup for the excavation process.
- Dug up trenches in site .
